

I feel that the Dlink system is very important for the deaf community. I just recieved my dlink and it makes it much more convientant for me to keep in contact with my deaf world. before I had this system I was unable to visit face to face with my deaf friends that i have not seen in many years. for us who are living in a hearing world we need to remain in contact with the deaf world. this system has made this possible. I am very happy this has come to be avaible to me and my friends. Thank you for making this possible not only for me but for the many in my deaf world.
